

Erka 'Switch' Aneroid Sphyg

The Erka Switch is manufactured from shock-resistant polycarbonate. It is both elegant and robust, and has passed the shock test according to AAMI SP9. The sight glass is chemically stable and unbreakable. Available with a latex free bladder. The Erka Switch is currently used worldwide by: General Practitioners, Paramedics, Nurses, Hospitals, Physiotherapists, Podiatrists and various other professions.

Features

- Comfortable handling thanks to its flat construction
- Outstanding ergonomics and simple adaptation for left or right handed use
- Replaceable manometer housing
- Brass valve screw works smoothly and is adjustable to exact settings
- User-friendly valve cap for ease of use, even with gloves
- Latex free bladder
